|---|---|
| **Client Name:** Bia Beauty | **Contact No:** 99768 55732 |
| **Instagram Handle:** @beautybiaa | **Google Profile:** https://share.google/PcCFWeiuVVH83n6Hd |
| **Physical Studio Address:** Saravana nagar, main road, near erode, Therkkupallam, rifles, Thindal, Erode, Tamil Nadu 638012 | |

## 1. Project Overview & Business Intent

The objective is to architect and deliver a high-performance, single-page landing application for Bia Beauty. Serving bridal clients across Erode and surrounding regions, the system converts prospective leads through an uncluttered digital showcase, emphasizing clear service presentation and direct client inquiry routing.

## 2. Core Client Directives & Aesthetic Rules

**Non-Negotiable Deliverables:**

- **Services to Highlight Exclusively:** Restrict all service catalogs strictly to *Bridal Makeup*, *Hair styling*, and *Saree draping*. No peripheral salon treatments are to be listed.
- **Visual Palette:** Strict minimal color direction based on off-white, ivory, and soft alabaster neutrals. Heavy color gradients, dark themes, and saturated tints are excluded.
- **Decoupled Standalone Enquiry Form:** The lead capture mechanism must reside in a dedicated, prominent block rather than being relegated to a small footer column.
- **Immediate Service Visibility:** Key styling offerings must be immediately evident above or adjacent to the primary viewport fold without requiring complex sub-navigation.

## 3. Structural Page Hierarchy

The web application operates on a focused linear flow engineered for optimal discovery and conversion:

1. **Masthead & Navigation:** Minimalist brand identity, contextual anchor links, and an immediate booking trigger.
2. **Hero Impression:** Refined editorial heading with studio location indicator (Thindal, Erode) and rapid action shortcuts.
3. **Primary Services Matrix:** High-visibility presentation of the three authorized service verticals.
4. **Social Proof & Curation:** Direct connectivity to Instagram portfolio (@beautybiaa).
5. **Standalone Enquiry Section:** Independent appointment and consultation request module.
6. **Studio Location & Contact Hub:** Complete physical address, interactive Google route access, and one-tap dialing.

## 4. Functional Requirements

### 4.1 Header & Sticky Controls (FR-01)

- **FR-01.1:** Persistent semi-translucent off-white header with refined border line.
- **FR-01.2:** Typographic logo for "Bia Beauty" returning users to the top fold.
- **FR-01.3:** Anchors for *Services*, *Enquiry*, and *Contact*.
- **FR-01.4:** Direct action button labeled *"Book Consultation"* smooth-scrolling to the standalone enquiry module.

### 4.2 High-Visibility Services Architecture (FR-02)

| Service Offering | Functional Description & Scope | Interaction Target |
|---|---|---|
| **Bridal Makeup** | Focus on Muhurtham, reception, and engagement styling. Long-wear formulations, skin-prep, and bridal trials. | Triggers enquiry form with "Bridal Makeup" pre-selected. |
| **Hair Styling** | Traditional flower-set braids (poola jada), contemporary textured updos, and modern reception wave sets. | Triggers enquiry form with "Hair Styling" pre-selected. |
| **Saree Draping** | Precision silk pleating, box folding, cancan setting, and pre-pleating services for bridal events. | Triggers enquiry form with "Saree Draping" pre-selected. |

### 4.3 Standalone Enquiry Form Specification (FR-03)

Per client requirements, this module is housed in an independent structural block with distinct borders and spacious margins.

| Field Label | Control Type | Requirement | Validation Rule |
|---|---|---|---|

## 5. Non-Functional Specifications

| Dimension | System Requirement |
|---|---|
| **Visual Palette** | Predominantly white and off-white surfaces (#FFFFFF, #FAF9F6, #F5F4F0) paired with dark slate (#0F172A) text to preserve an airy, luxury boutique atmosphere. |
| **Responsiveness** | Mobile-first architecture ensuring seamless touch navigation on viewports from 360px width up to 4K displays. Touch targets sized ≥ 44px. |
| **Performance** | Static page delivery with optimized asset weights targeting a First Contentful Paint (FCP) of under 1.2 seconds on standard mobile networks. |
| **Accessibility** | High contrast ratio (> 7:1) meeting WCAG 2.1 Level AA compliance across all form labels, input borders, and primary typography. |

## 6. Acceptance & Verification Matrix

| Verification ID | Condition Being Tested | Pass Criteria |
|---|---|---|
| **VR-01** | Service boundary restriction | Only Bridal Makeup, Hair styling, and Saree draping are displayed. |
| **VR-02** | Palette integrity | DOM body and container background use off-white/neutral shades only. |
| **VR-03** | Form isolation | Enquiry module is rendered as an independent section with full form controls. |
| **VR-04** | Service prominence | Service trio is visible within the initial scroll view below the hero banner. |
| **VR-05** | Contact links resolution | Dialing 99768 55732, opening Google link, and opening @beautybiaa operate correctly. |
